

PCB MANUFACTURING AND SERVICES

CINA-TECH CIRCUIT

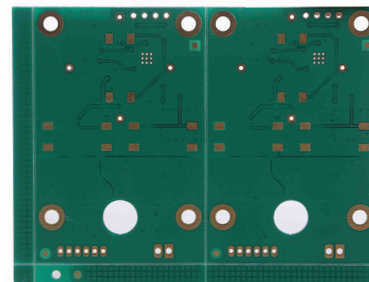

Cina-Tech Circuits supports global customers with high quality printed circuit boards. Cina-Tech Circuits is TS 16949, UL Certified and ISO9001:2008 compliant. With a 95% on-time delivery rate and a monthly production capacity of 750,000 SF for double sided PCBs and 85,000 SF for multi-layer PCBs ranging from 2 to 28 layers, Cina-Tech's automated plating lines produce exquisite circuits with excellent signal quality and high reliability.

Layer Count	2-28
Max. Board Size	20" x 24"
Material	Getek, Rogers, Aluminum/Copper Based FR-4, FR-5 (SY S1170, Isola Tg 180° C)
Surface Finish	ENIG, ImAg, ImSn, OSP, Lead-free HAL, Flash Gold, Hard Gold
Min. Line Width/Spacing	.075mm (3 mil)
Min. Hole Size	.15mm (6 mil)
Min. S/M Pitch	.075mm (3 mil)

SPECIALIZING IN THICK COPPER PCBs • HDI PCBs • RIGID-FLEX CIRCUITS

- ISO9001:2008 Quality Management
- TS16949 Certified in Automotive Application
- ISO14001 Environment Passed
- 100% Incoming Inspection by IQC
- 100% AOI Inspection for Inner Layers
- Copper Thickness measured by OXFORD
- 100% Dry Film and Solder Mask Touch Up
- Control Line Width/Space during Etching
- Gold Thickness measured by X-Ray
- 100% E-Testing to Certify Zero Open/Short
- IPC-6012B to Control PCB Performance
- IPC-A-600G Quality Standard for Acceptance
- UL Certified Rating 94V-0
