

A Global Solutions Provider for Aerospace and Defence Composites

Heritage of Manufacturing Distinction

Manufacturing units across 7 countries in 4 continents,
offices in 25 countries and clients in over 85 countries,
Lohia Group defines quality.

With over 5000 people and industry leadership in varied sectors,
we are pioneers in machine building, automotive and textiles.

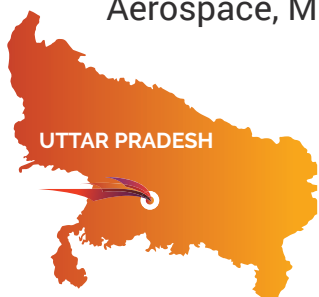

**40 years of manufacturing legacy
world leaders in woven sack machinery**

Center of Excellence for Aerospace Composites

Over two decades of aerospace composite manufacturing in Israel and a 100 years of combined composite production expertise of our in-house production teams in the aerospace sector.

Our development partners on mission critical aerospace projects and our composites focused aerospace technologies line-up help us present to you our products for the complete spectrum of Aerospace, Military and Space applications.

The first to bring in aerospace technologies to Uttar Pradesh

Frontiers of Excellence

Lohia Aerospace Systems is a designer and manufacturer of composite products for the aerospace and defence sector. With the amalgamation of high-end technologies and our manufacturing expertise, we are at the forefront of establishing India as a leading exporter of customized composites products to global customers worldwide.

2 facilities in 2 countries spanning a total of 11000 sqm

Pedigree of 20 years of aerospace composites manufacturing

Over 100 skilled technicians

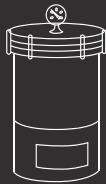

Manufacturing 4.0

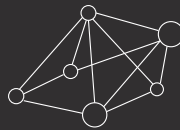

Future Ready

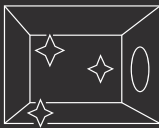

Our brand-new manufacturing unit in Kanpur, in the northern state of Uttar Pradesh, is designed as the centre for every composite requirement. Spanning 7,500 sqm in a campus of 30,000 sqm

**LARGE SIZE AUTOCLAVES
AND OVENS**

**FULL SERVICE AEROSPACE
COMPLIANT QC AND NDT
LABS**

**1,000 SQM OF CLEAN
ROOMS**

**ALL TECHNICIANS
EXTENSIVELY TRAINED AT
OUR ISRAEL BASED FACILITY**

Global Aerospace Manufacturing Presence

Established in 2007, our manufacturing unit in Israel is an Aviation Standard certified 4000 sqm facility with an exclusive focus on catering to the aerospace and defence industry. We are also Israel's largest private producer of aerospace focused composites components.

Product Prowess

Exclusively aerospace focused production with a robust portfolio for all things composites - from far out in space to the deep sea.

We have a highly developed in-house design engineering team with advanced program management expertise. We also follow a comprehensive variety of production processes like prepreg layups, wet lay-ups, liquid resin infusion and resin transfer molding.

AEROSPACE APPLICATIONS

SPACE APPLICATIONS

MILITARY APPLICATIONS

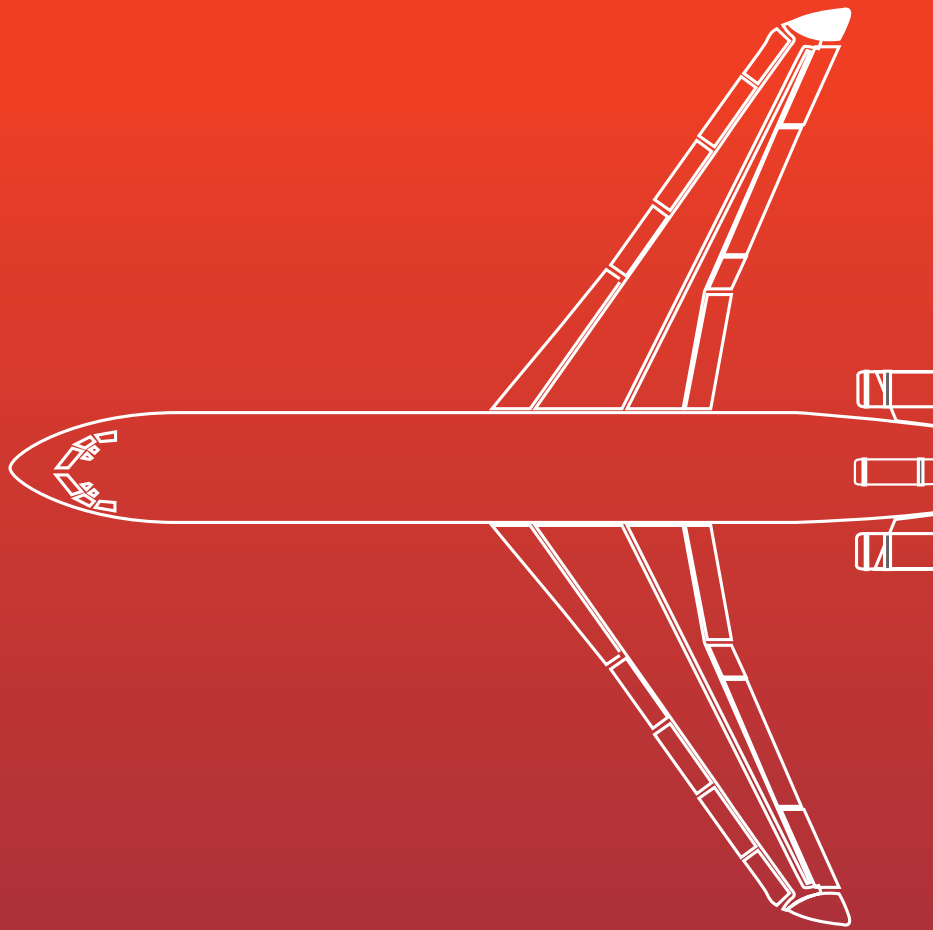

NAVAL APPLICATIONS

Value Proposition

A certified MSME for offset multiplier benefits with proven capabilities in Israel and large scale best cost manufacturing solutions in India, Lohia Aerospace comes with a global team and a global outlook.
